

FROM THE DESK OF PRINCIPAL

I extend a warm welcome to the website of Nehru Homoeopathic Medical College and Hospital, an epitome of academic fineness in the field of Homoeopathy.

Being one of the premier and reputed homoeopathic colleges of India, the institute has over the years emerged as par excellence resource center for upliftment of undergraduate and post graduate homoeopathic education. Our institute has always strived to impart quality homoeopathic training to the budding aspirants and all efforts are made to update clinical acumen of our students to keep up the standards of education and health delivery.

This Institution with a 100 bedded attached hospital has been providing optimal medical care facilities where a fully functional OPD is catering to large number of patients. In the field of research, a number of Research projects are also being conducted in NHMC OPD in which emphasis is to establish clinical efficacy of homoeopathic treatment in varied medical conditions such as Psoriasis, Arthritis, gall stones, Vitiligo etc.

The hospital is also running Indoor services in which patients are provided thorough Homoeopathic treatment with standardized case records and diagnostic facilities. The patients are under care of senior faculty members who have been allotted units with a team of faculty and junior residents for adequate individual patient care. The institute is also participating actively

in National Health Programs such as Pulse Polio immunization program and mainstreaming of AYUSH with the Family welfare services.

It is a matter of pride and privilege for me that the institute has initiated the process of opening Post graduate education in three more subjects namely Repertory, Materia Medica and Psychiatry. I personally believe that the emerging trends of health care and new scientific researches necessitate time to time enhancement of the professional knowledge of teachers, practitioners and researchers. For this purpose, we encourage the faculty and students to undergo a need based professional orientation and incorporate scientific advances in their health care approach.

Let's join hands to take N.H.M.C & Hospital to the pinnacle of quality Homoeopathic education, patient care and research.

JAI HIND
